

## Features:

- Screw Terminal Connection
- 100mA of Regulated Power at 24Vdc
- 115 Volts 50/60 Hz Input
- Easily Mounted

24 Vdc Power Supply – PS-24

## Application:

This module converts unregulated AC to regulated DC output. A compact supply to power various DC operated peripherals and input / output modules on PLC's or flow transmitters and flow switch options W, X, Y, Z or W2, W3 or RW3 and 1S2, 2S2 switches.

## Description:

This module converts 115VAC to DC. The PS-24 can deliver 100mA of regulated 24VDC for transmitters running on 24VDC.

## Mounting:
